# TECHNICAL SERVICES

## ON-SITE SERVICE

Do you need on-site service?  
We would be happy to visit you.  
Our service technicians will support  
you with technical questions and  
problems to ensure that your  
production runs smoothly.

## OUR SERVICES INCLUDE:

- ON-SITE REPAIRS & INSPECTIONS
- CLAMPING FORCE MEASUREMENTS
- FUNCTIONAL TESTS
- PRODUCT TRAINING
- COMMISSIONING
- TROUBLESHOOTING & ANALYSIS

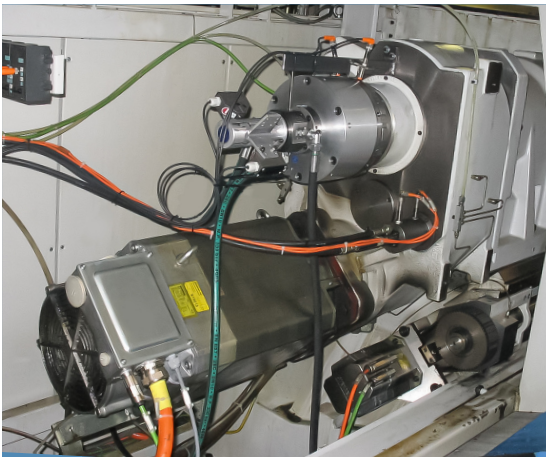

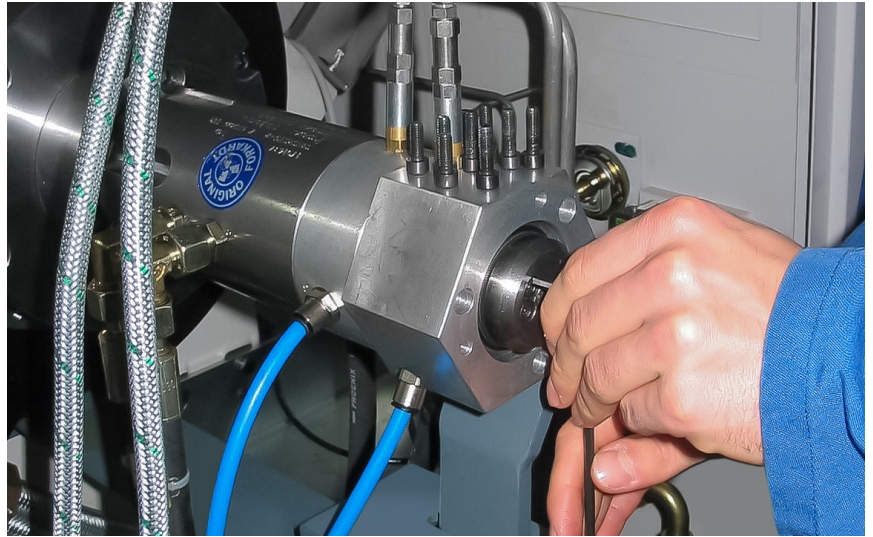

# CHUCK REPAIRS

Damaged or defective clamping devices can be sent to us for repair.

Also clamping devices, which should be overhauled, can be sent to us gladly.

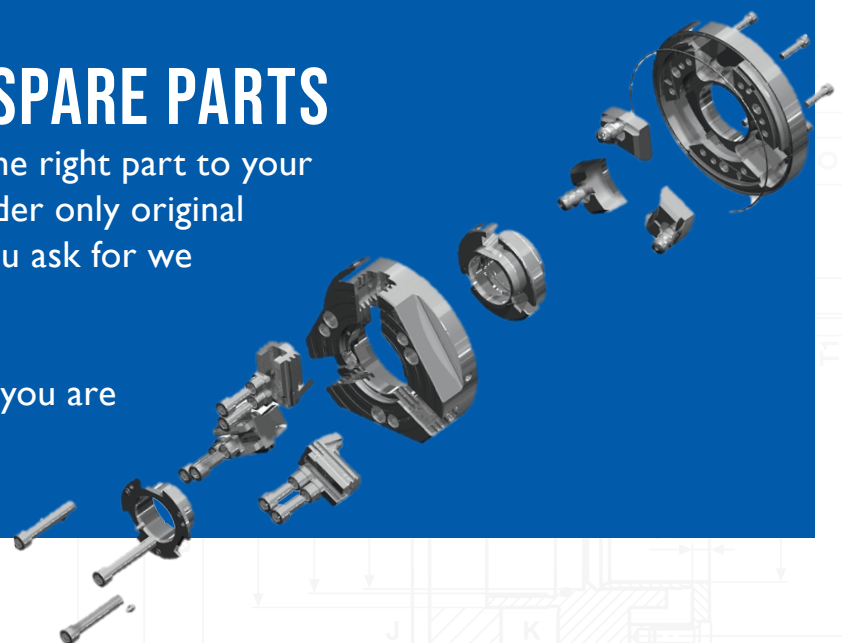

These will be reviewed, and a cost estimate prepared. Improvements or innovations to the model are included in the repair.

## ORIGINAL FORKARDT SPARE PARTS

To make sure that you always get the right part to your Forkardt clamping device please order only original Forkardt spare parts. Whenever you ask for we take care for the correct part.

Ask for the part you need or ask if you are not sure if it is the right part.

# TRAINING COURSES

If you are interested in a training on our products, the correct maintenance or other contents, we will be happy to visit you.

# SERVICE & MAINTENANCE CONTRACTS

Would you like regular and 'predictive' maintenance of your clamping devices?

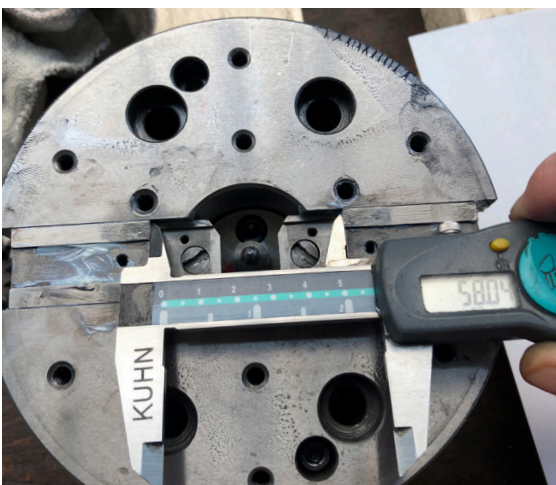

Reliable processes – thanks to regularly serviced clamping devices.

With a service contract, you can extend the life cycle time of your clamping devices and reduce your breakdown costs.

## BENEFITS:

- Extended service life of the clamping devices with the same accuracy
- Early detection of wear Avoidance of production breakdown times
- Original spare parts from Forkardt
- Calculable costs

## SERVICES:

- Coordination and monitoring of the service intervals
- Cleaning the clamping devices
- Checking the functions and wearing parts
- Replacement of wearing parts
- Documentation of the service work carried out
- Repairs on site or at our factory
